EDITORIAL NOTES.

The history of President Lincoln's first inaugural as related by Ben Perley Poore is evidently truthful, as it shows the simple and genuine nature of the man. Instead of requesting the Secretary of State to prepare the document, as Mr. Seward expected he would, Mr. Lincoln wrote it at Springfield, had it put in type by the local printer and printed on foolscap paper probably taken from his own office. The paragraphs were marked by typographical lists, which may have been suggested by him as he stood by the case. The address was placed in a satchel and put in charge of "Bob," now the Hon. Robert T., and lost on the journey to Washington. Mr. Lincoln finally found it among the bundles and trunks in the baggage car.

The Eureka Leader approvingly copies the article of the Austin Revue, wherein that paper names R. M. Daggett for J. P. Jones' successor, and Senator M. D. Foley of Eureka for Congress. The Revue has evidently soured on Senator Jones, and seems to think that his 12 years in the United States Senate ought to satisfy the people.

FOREIGN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE.]

Unveiling a Statue—French Diplomacy.

PARIS, August 21.
The statue of Lafayette will be unveiled at Lezay, the capital of the Department of Lot-et-Garonne, September 6th. Waldeck Rousseau, Minister of the Interior, and General Thibaudin will be at the ceremony. Rear Admiral Galiber, successor to Admiral Prevain in command of the French fleet in Madagascar waters, will meet Admiral Prevain at the reunion, and will afterwards go to Tananarive and open negotiations with Hayao. He will insist upon the French protectorate over north-west Madagascar, the abolition of the law relating to the seizure of land by Europeans and the payment to France of 1,000,000 francs indemnity. The latter demand may be varied, however, if Madagascar complies with the other demands.

The Premier Aroused.

LONDON, August 22.
In the House of Commons last evening there was sharp sparring between Sir Stafford Northcote and Gladstone, the latter praising the working of the Land Act, and Earl Spencer's vigorous government of Ireland. He also said that nothing had grown out of the Madagascar affair to disturb the friendly relations between England and France.

He Was Again Remanded.

LIVERPOOL, August 22.
James McDermitt, arrested here recently on the arrival of four Americans, on a suspicion of complicity in the dynamite conspiracy, has been further remanded. The prosecution will show that McDermitt was in Cork in company with Featherstone.

Mount Vesuvius Agitated.

NAPLES, August 22.
Mount Vesuvius is in remarkable activity. A continuous trembling has resulted in considerable injury to buildings and to the railway running up the mountain.

TELEGRAPHIC BRIEVITIES.

There were 57 deaths from cholera at Alexandria yesterday.

A court of inquiry has been ordered to investigate the origin of the yellow fever at the Pensacola navy yard.

A telegram from Capetown says O'Donnell, the slayer of James Carey, will be sent to England immediately for trial.

A Hong Kong correspondent of the London Standard says the Chinese are treating with Germany for the purchase of 10,000 rifles.

Two Irish families and three German painters of assisted emigrants were returned to their native countries by the authorities of this country yesterday.

Hon. Wm. Windom, ex-Secretary of the Treasury of the United States, was given a banquet in London last night. Several members of Parliament, besides prominent Americans were present.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

Governor Crittenden After the Bruisers.

JEFFERSON CITY, Aug. 22.
Crittenden yesterday addressed a letter to Marshall Murphy of Kansas city, calling his attention to the open violation of the statutes by Slade and Mitchell, who are training and preparing for a prize fight, and their abettors being guilty of felony under law and liable to punishment by confinement in the prison for from two to ten years. Where the agreement is made in the State, or the training done to fight in another State, the punishment is from two to five years. The Governor suggests to the Marshall that in the absence of the prosecuting attorney he (the Marshall) take such steps as he deems necessary.

In regard to the above letter, it should be stated that Slade is now located at Independence, while Mitchell is across the line in Kansas. The agreement, it is stated, was made in New York. Slade's agent, being interviewed recently regarding the matter, said his man was simply sojourning at Independence for his health and pleasure, and exercising accordingly.

A Railroad Accident.

MEMPHIS, Tenn., August 22.
The west-bound passenger train of the Memphis & Little Rock railroad, which left here at 5 o'clock Tuesday afternoon, met with an accident last night, four miles west of Forest City, Arkansas. While crossing a short trestle, a broken rail caused two second-class passenger coaches, baggage and express car to go through the trestle, killing J. B. Salinger, Harry J. Olders, merchants of a cotton plantation in Arkansas; John Adair of the Little Rock road, and several other passengers were injured.

A Satisfactory Light.

NEW YORK, August 21.
Under the auspices of Lieutenant West of the United States Light-house Board, a party, composed of Senator George of Mississippi, Congressman Kind of Louisiana and members of the Chamber of Commerce, Marine Exchange and representatives of the Mercantile Marine, last evening made a trip in the outer harbor, to inspect the action of the Foster gaslight buoy and beacon off Sandy Hook. The beacon, which was lighted three months ago, was found in full force and brilliancy, and is reported by the officers of the light ship as unfailing.

The Western Union Fire in Chicago.

CHICAGO, Aug. 21.
The Western Union Company has evoked system out of the confusion precipitated by the destruction of their main operating room. An army of linemen are employed disconnecting the labyrinth wires which make their way into the ruins of the old building, and connecting them with the Mutual Union building across the way. The telegraph company estimates their loss to not exceed \$15,000 to \$20,000; no insurance.

More Religion than Sense.

PHILADELPHIA, August 21.
The four Reading Railroad laborers arrested here on Sunday, the 12th inst., upon a charge of the illegality of performing worldly labor on that day, were given a hearing to-day. Testimony was offered to show that the work could not be accomplished on any other day of the week, in consequence of the frequent passage of trains, and the magistrate, taking that view, decided the work a necessity and discharged the defendants.

Hilling Mills in Colorado.

PUEBLO, Col., August 22.
The Colorado Coal, Iron & Steel Works, located at Pueblo, have completed their steel rail contract for the Rio Grande Railroad, and are now working to the full capacity of the mills, on an order for steel rails for the C. & G. Railroad, which will keep the mills going for several months. The company has all the work it can possibly do for some months, in all its departments.

A Fire—Signal Service.

DENVER, Col., Aug. 22.
The Denver Soap Works were burned this morning. Loss \$20,000; fully insured.
Chief Signal Officer Hansen arrived this morning from a tour of inspection of the western signal stations and reports the department in excellent working order.

New Ship Launched.

WILMINGTON, Del., August 22.
The side-wheel iron passenger steamer Olympia, built for the Oregon Railway and Transportation Company to run on Puget Sound, was launched yesterday afternoon. She is 200 feet long, 38 feet wide and 14 feet depth of hold.

Destructive Forest Fires in Maine.

BAR HARBOR, August 22.
In addition to the forest fires which have been raging for several days, fires have broken out in new places, and the smoke, like a heavy pall, envelops the island and renders respiration difficult. A heavy fire has just broken out in the forest on the northwest side

of the Green Mountains, and a gang of men are fighting the flames to keep them off the railroad and Summit House. So many and such destructive fires have been known for years here, and a large amount of valuable timber is doomed to destruction. Still another fire has broken out on the other side of the mountains, and from below looks as if the Mountain House, on the summit, is surrounded. A heavy rain is the only hope for extinguishing the flames.

A Texas Shooting Affray.

AUSTIN, Texas, Aug. 22.
Dr. Abraham, a prominent physician and an ex-Confederate surgeon, was shot and probably mortally wounded by a negro named Clark, in an affray yesterday, in which the parties fired several shots. The negro claims to have been the victim of a system of petty persecutions. The Dr. alleges that Clark looked through the window at Mrs. Abraham's while making her toilet.

Adulterated Lard.

CHICAGO, August 22.
The reading of the report of the committee appointed to investigate the charges of the adulteration of lard made against the Fowler Bros., on the floor of the Exchange this morning, verified the statement made in these dispatches last night. The particular charge against the firm of tending a quantity of adulterated lard to McGooch and Evering Hall was not verified.

The Northern Pacific About Completed.

HELENA, M. T., August 22.
Both ends of the Northern Pacific will connect to-day, a few miles west of Mullan tunnel. The gold spike will be set on the 8th of September by President Villard and Jay Cooke. It is estimated that 30,000 people will be in Helena from the first to the 15th of September, and ample provision has been made to accommodate all in the city.

Awaiting a Court Decision.

KANSAS CITY, August 21.
A Times, Wichita, Kan., special says: A. B. Steinhilber of this city, who has been prominent in the Oklahoma movement, has just returned from a tour through the Oklahoma country, says there are 600 colonists along its streams, and intend to stay unless expelled by armed force. They are anxiously awaiting the decision of the United States Court in Captain Payne's suit.

A Sensational Nuisance.

BUFFALO, August 22.
Captain Rhodes is still hovering around the city, but gives no special time for his published intention to swim the whirlpool. He is reported to have purchased a large dog, which he intends sending through the rapids as an experiment. No faith is placed in Rhodes here, where he is best known, and he is looked on as a sensational nuisance.

An Injunction Asked.

DENVER, August 21.
The argument on the application for an injunction to restrain the Denver & Rio Grande from building a branch up California Gulch, was continued in the District Court to-day. The Court took the case under advisement until to-morrow.

SAN FRANCISCO NEWS.

An Alarming Decision—Eastern Star Officers—Death of an Old Pilot.

SAN FRANCISCO, August 22.
In the case of the Chinese carpenter landed at Boston, Mass., from the ship Erne, Judge Nelson, a Federal Judge of Massachusetts, has practically decided that Chinamen from Hong Kong are not restricted under the treaty with China from coming to the United States. A Boston special to the Call says: Judge Wilson rules the term on the treaty, that "Chinese laborers" does not apply to Chinamen from Hong Kong, which is a British possession. The treaty is reviewed as one that will render nugatory, the anti-Chinese Act.
At a meeting of the Grand Chapter of the order of Eastern Star, Rollin C. Gaskell of Oakland was elected Most Worthy Grand Patron, and Mrs. Jennie C. Matthews of Iowa, Grand Matron. The present membership of the order is 30,000. The Grand Chapter of California being the largest in the order.
Captain William H. Joffile died yesterday from the effects of injuries received last June. The deceased was the oldest pilot on the coast.

Blomberg Talks Back.

BERLIN, August 22.
In the North German Gazette Blomberg is again replying to the attacks of the French journals on Germany, and their cry for revenge declares that France is also threatening the peace of Europe. He says such a state of affairs cannot be continued without serious danger, and that passions fomented by agitators may burst the bounds of peace.

TELEGRAPHIC BRIEVITIES.

The foot and mouth disease has appeared among the cattle at Spalding, County of Lincoln, England, and is spreading.

The ship Ellablin from Hull, England, April 24, for San Francisco, was abandoned in a sinking condition off Cape Horn. The crew has arrived at Montevideo.

Two operators, returned strikers, were dismissed from the Western Union service for calling the operators who did not strike, and with whom they were working, "scabs."

A Destructive Cloud Burst.

TUCSON, August 21.
A Florence special says: A cloud burst nearly destroyed the town of Silver King; boulders weighing 20 tons were washed down the mountain side.

NEW TO-DAY.

AYER'S Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be thickened, thin hair thickened, and baldness often, though not always, cured.

It cures itching of the scalp, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and keeps the scalp cool and healthy. It is a sure cure for itching of the scalp. As a Ladies' Hair Dressing, the Vigor is unequalled: it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

Mrs. C. P. BRIGGS writes from Kirby, O., July 3, 1882: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWEN, proprietor of the McArthur (Ohio) Enquirer, writes: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. It cures itching of the scalp, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and keeps the scalp cool and healthy. It is a sure cure for itching of the scalp. As a Ladies' Hair Dressing, the Vigor is unequalled: it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume."

Mrs. C. P. BRIGGS writes from Kirby, O., July 3, 1882: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

Mrs. O. A. PRESCOTT, writing from 18 Elm St., Charleston, Mass., April 14, 1882, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and now I have good hair before I fell. I regularly used but one bottle of the Vigor, but now use it occasionally as a dressing."

We have hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.

A HOME DRUGGIST

TESTIFIES.
Popularity at home is not always the best test of merit, but we point proud of the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best known Massachusetts Druggists should be of interest to every sufferer:

"Eight years ago I had a severe case of Rheumatism, so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your Sarsaparilla, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public."

River St., Brookline, Mass., May 15, 1882.

SALT RHEUM.

GEO. ANDREWS, owner of the Lowell Carpet Corporation, writes: "I was afflicted with Salt Rheum in its worst form. Its ulcerations actually covered my face. He was cured by the use of AYER'S SARSAPARILLA. See certificate in Ayer's Standard for 1880."

A Carson butcher is said to have got rich by weighing his hand every time he sold a steak, but at the shop of J. D. "Dare I see friend, Samuels, in a t-gard?" exclaimed Solomon Moses yesterday; "and how it happens I know me not, unless he should out do a lot of vito goods last week. Some day, Samuels, will be President of the United States, and drink Yack Becker's Fredricksburg beer. I tells you he was schmard."

"I am subject to light-headed spells," remarked a lady to her guests recently. Of course each and every one had a sovereign remedy, but none proposed a certain cure until her little son spoke out: "Why don't you go to Levy's for your dry goods? That will cure it. They keep everything and sell goods cheap."

A walling orator exclaims: "Dark is the night that settles down upon Ireland." Right you are, sonny; you sing the truth like a Chinese poet-laureate of the fifth degree. But what kind of a night would you have in Ireland—all moonlight or—daylight, eh? Go to, thou knave! Go to George Becker's and try his celebrated Pacific beer. You won't care a snap whether Ireland's nights are moonlight or dark. Try it.

There is no longer any need for retail liquor dealers to pay fare to San Francisco and back, in order to replenish their stock, for at the wholesale store of Chelovich & Co., in Reno, can be purchased as cheaply as can be bought on this coast, as good liquors as were ever sold over a bar.

Liquors ordered through California druggists are liable to spoil on the way, or else they frequently make mistakes in putting up the orders.

An Unmuzzled Swindler.

William Eekhoff, of the Sazerac, in Virginia City, has received the following letter from Edward Uhl, manager of the New York State Zeitung, in regard to L. Von Freeman, who swindled many persons in this state, pretending he was a correspondent of the New York State Zeitung, Chicago Union, and other papers. "Dear Sir: In reply to yours of the 8th instant, we beg to state that the individual calling himself L. Von Freeman, correspondent of our paper, is an unmuzzled swindler. We have no correspondent nor agent of that name."

A Dance at Glendale.

Last night a very enjoyable evening was spent at a social dancing given by the Glendale folks at Danzing's Hall. There were about 50 couples present, a good many being from Reno. The music was furnished by Cass and Goler, and the dancing was kept up until after 2 o'clock, everybody leaving feeling as though they had had a very pleasant time, the party having been a complete success in every particular.

THE LEPROUS.

What Dr. Waggoner Has to Say About Leprosy.

EDITOR GAZETTE: I want no controversy with my friend Dr. Hogan, but since his card in your issue of the 20th places the cases of leprosy reported by me to the Board of County Commissioners in the subjunctive mood, I wish only to submit a few facts descriptive of the dreaded and loathsome disease that may enable the doctor to correct his diagnosis in the case and be of benefit to him in the future, should he be called upon to pass an opinion on another case. In regard to its contagion, Dr. Henry G. Pifford, an American physician in China, says: "The fact of the contagious character of leprosy should result in legislation providing for the isolation of these patients. America is interested in this, for, without speaking of the Norwegians, who have carried the disease into their settlements, the Chinese have introduced it into California, and there is not the shadow of a doubt but that it will pass from them to the other inhabitants of the country. Thus far it has been confined to the Chinese, but it certainly will not be restricted to them."

On its nature and diagnostic signs I will quote liberally from the immortal Virchow: "The doctor will certainly recognize the authority. He says: Leprosy is an incurable, constitutional disease, marked externally by discolored patches and nodules on the skin, and deeply implicating the structure and function of the peripheral nervous system. Like the infections, it has a prodromal stage, measured by years rather than by shorter time, which is followed by the eruptive stage (the condition in which we usually see, during which blotches on the skin come and go; sooner or later these erythematous congestions and exudations leave either permanent spots, brown or blanched, which are often without feeling (see Chinaman at Lake House), or they leave nodules (see Chinaman at jail). The disease diverges into two main varieties—the spotted (lepra maculosa), and the nodular (lepra tuberculosa). The two kinds are found side by side and frequently in the same person. The maculae arise in the place of former recurrent spots, and are often raised in duration. When the pigmentation deepens, the disease is lepra nigra, or black leprosy (see Lake's cook)—the case in question. When the spots become blanched, it is lepra alba, or white leprosy. The nodules, characteristic of the cases in question, generally arise in the situation of old blotches; at first small, scattered points, but they grow and coalesce. While the maculae of leprosy may occur in any part, the nodules are most apt to form on the face, causing thickening of all the features (see Lake's Chinaman), but they often occur on the hands and feet and sometimes over the whole body. The nodules, from being exposed to the weather and injuries, often ulcerate, and, like those of syphilis and lupus, tend to spread. Maculae, especially on the limbs, are liable to slight ulcerations followed by incrustations. Deep ulceration and necrosis occur at the joints of the fingers and toes, which may drop off, joint by joint, leaving a well-healed stump (lepra mutilans). So much for diagnostic symptoms by Virchow. Are they not true pictures of our Chinese lepers? Let the doctor answer."

F. R. WAGGONER, M. D.

Reno, August 21, 1903.

Well Guarded.

Out at the State Prison, says a Carson paper, there is a watermelon patch. It is without doubt the finest watermelon patch in the State, and has the additional attraction of several hills of muskmelons. It has no fence around it and is exceedingly easy of access. All you have to do is to walk right around to where the melons are and try to get one. Now don't everybody rush at once for this place. It is guarded day and night by relays of six vigilant men armed with repeating rifles and six shooters. They are ostensibly engaged in keeping the convicts from escaping, but their real object is to watch that melon patch. They watch each other as well as the rest of the world.

Interesting to Milkmen.

An exchange says: Careful experiments recently made in Germany show that cows milked three times a day yield milk richer in fat than if milked but twice each day. It is also reported that cows milked three times a day give five pounds of milk over cows milked but twice.

The Virginia Enterprise adds: We hope our milkmen will now start in and milk their cows about six times a day. Let 'em elbow grease' take the place of water.

A Fine Stock.

P. J. Toll has just returned from California, where he bought a large stock of new furniture of the latest style. Mr. Toll also carries a large line of second-hand goods of the best quality. He buys for cash, therefore is able to sell his goods very low. Read "ad" and call on him.

Better Than a State Office.

C. T. Cutler, who was the Democratic candidate for Superintendent of Public Instruction in Nevada in 1903, and a brother of Mrs. W. N. Knox of Reno, sold a mine a few days ago in Mexico to Eastern capitalists for \$350,000.

PERSONALS.

Colonel John Rosser of Carson returned from below this morning.

E. Black Ryan, the Central Pacific land lawyer, was on board the east-bound train to-day.

Misses Mary and Sarah Wilson left on this morning's train for a visit to Carson and Virginia City, to be absent a few days.

A. C. Glen, a brother of Robert Glen of Reno, has been appointed supervising architect of the new Court House at Hawthorne.

Hon. Tom Lane of Inyo county, Cal., who went below some time ago to have a finger doctored, returned this morning, and says that there is hardly standing room in San Francisco.

Nels Hammond, who has charge of the farm on the Indian Reservation at Walker Lake, arrived this morning. He says owing to a scarcity of water for irrigation, the crops on the Indians' ranch will be light this year.

Hon. R. M. Daggett came down from the Comstock last evening and left on this morning's express for San Francisco. He seemed to think it quite possible that he may come this way again before returning to the Sandwiche Islands.

FLUTTER OF FLAGS.

Ropes are stretched across Market, Montgomery and Kearney streets every few yards, and are as full of flags and banners as a clothes-line on wash-day. A great arch covers Montgomery street in front of the Masonic Temple, with its pillars just wide enough apart for the two street-car tracks to be used. Another stands at the intersection of Third and Market. It is of Gothic architecture, and very fine; it is wide enough to take in the four street-car tracks. All the Grand Commanderies have hung their huge banners across the street, giving it a strange and striking appearance. In front of the Palace several such banners are hung.

OPPOSITION OF THE CATHOLICS.

To Masonry has been manifested by an order to the faithful to refrain from even looking at the display, and the houses of the members of that church remain undecorated and the shutters closed. There are peep-holes open, however, and some of the blinds thrown back. The procession was formed in ten divisions, on streets at right angles with the line of march, and when the head got started, the pieces fell in their proper places. The Nevada boys turned out near the head of the line with California Commandery No. 1 of San Francisco, which was also mounted. They rode black horses and looked well. Grand Master Dean and Grand Commander Perkins rode the white horses. Many very fine banners were in the procession, some of them having beautiful pictures painted or worked in embroidery on the silken ground. The Commanderies that have been training for the competitive drill went through some of their paces and were loudly cheered. One of them sprang, almost in a second, from ranks of three into a Maltese cross, and marched along in that shape. An Illinois Commandery carried as a standard a live American eagle.

A Fatal Affray.

At Estancia Springs, Yavapai county, New Mexico, John G. Whitney, on Saturday, shot and killed Manuel Otero. He was himself shot three times and seriously wounded, and his brother-in-law, Alexander Fernandez, was shot through the heart, and instantly killed. Dr. Henriques, Otero's brother-in-law, was also shot, and perhaps fatally wounded. Whitney is well known throughout California, Arizona, Texas and New Mexico. His family (wife and three children) are now summering in San Francisco, their former home. A dispute about land grants was the cause of the trouble.

A Ministerial Capitalist.

On the Sierra Valley stage, robbed in the early part of last week, a minister was relieved of \$25, but succeeded in securing a wallet containing \$100. A horrible suspicion flashes across our brain, says the Sacramento Bee. Can it be that the worthy divine had been betting on the Sullivan-Slade match? If not, where did he obtain this enormous sum of money? He probably held stock in the Nevada and Oregon Narrow Gauge.

A Live Frenchman on the Comstock.

This morning's Virginia Enterprise says: Monsieur A. Vanvert de Mean, Consul of France for the Pacific Coast, arrived here yesterday from San Francisco. He is stopping at the International Hotel, where he will sojourn for a few days. He proposes visiting the mines and everything else of interest on the Comstock. Monsieur de Mean is as able as he is popular among the French people residing on the Pacific Coast, and we are informed that he has manifested a desire of making the acquaintance of his fellow-countrymen of Virginia City.

Take off a Plank.

Passengers crossing the Sierras in the day time complain that the small streaks of light between the cracks in the snow-sheds have a disagreeable effect upon the eyes, and the most of them are of the opinion that if one plank on a line with the eye while sitting in the cars, could be taken off, that it would abrogate the disagreeable sensations referred to, and at the same time give passengers an opportunity to see something of the country in the vicinity of the summit.

A Dangerous Practice.

There is a reckless practice, which obtains to a considerable extent among people who travel by rail, to remain on the platform until the train is in motion before attempting to get on board. Neither the bell nor the "All aboard!" of the conductor are heeded, but the moment the train commences to move there is a rush for the car steps, and some of these fine mornings someone is going to be cut in two.

THE GRAND PARADE.

San Francisco in Holiday Attire—The Sierrita Temper Make a Magnificent Appearance.

It would be impossible for the telegraph, or, indeed, any other means of communication, to do justice to the pageant which filled the streets of this city to-day. Not only the East contributed to the throng, but Asia and the islands of the Pacific have sent many spectators, in addition to the masses that have poured in from every corner of the coast. There are considerable numbers of travelers from the Orient and Australia, who have timed their trips to England or the East so as to be here now, and have stopped to see the ceremonies. The Sandwiche Islands have sent a crowd, including the royal band, and United States Minister Daggett. It is estimated that there are over 5,000 Sir Knights here, and some say there are twice as many. The city itself is a

MOWERS, REAPERS, FARMING
IMPLEMENTS.

With all the appliances of a stock and
grain farm to be included
in the sale.

The Whole Ranch Comprising One
Hundred and Six Thousand
Acres.

CONTROLLING TWO HUNDRED AND
FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR,
as it is sometimes known, "The Iron
Point Stock and Grain," is a fine
tract of land, now offered for sale upon
terms which represent a liberal conces-
sion to the purchaser, and offers high in-
ducements in the way of a safe, perma-
nent and profitable investment.

With this ranch will be sold four thou-
sand and five hundred head of cattle, and
head of stock cattle, now in splendid
condition, embracing thoroughbred Dur-
ham bulls, purchased at a cost of six hun-
dred dollars each. The entire herd is
composed of grades produced by crossing
the best American cows with the very
best thoroughbred Durham bulls ever
imported to this country. There are no
inferior animals in the herd; no Spanish
cattle or crosses from Spanish cattle.
These ranches embrace six thousand
acres of meadow land, which will pro-
duce about five thousand tons of hay per
annum. There are two hundred and
forty acres of fine alfalfa under irriga-
tion, capable of producing twelve hundred
and fifty tons of hay per annum. Twenty-
eight thousand acres of this ranch is now
under fence, and the remainder is a sta-
ble apart, with four barbed wires, nearly
new. Buildings attached to the ranch
consist of one good one story and a half
house, with four rooms, a stone cellar,
and stone dairy house, well built. Horse
barn forty by one hundred feet, with stall
for thirty horses. There is a splendid
creek of living water running through the
ranch; also, an excellent system of water
with two or three springs. Inside the in-
closure there are two springs from which
issue about twenty-five hundred gallons of
water, sufficient to irrigate twenty-five
hundred acres of land which lie below
them, and which may be subjected to ir-
rigation but little cost. Included in this
sale there are two thousand acres of fine
agricultural and meadow land, about
seven miles northeast of the ranch build-
ing, upon which there are one hundred
and twenty acres in alfalfa finely growing.
This is a fine grain ranch, and will pro-
duce forty to fifty bushels of barley per
acre per annum. There is a good orchard
in bearing, and a large tract of water af-
forded abundance of trout. About four
hundred acres of this small ranch is un-
der fence. The vendors of this ranch in-
dempnable to the use of two hundred and
fifty thousand acres of land for grazing.
There is sufficient water to irrigate twenty-
four thousand acres in the lower ranch,
and one thousand in the upper, making a
total of thirty-four thousand acres of land.
The sale will include eighty-four head
of good American horses, fifty of which
are large fine bred horses, the remainder
being saddle horses, well trained for
herding cattle and well broken work
horses; also, there are two hundred and
forty acres of fine alfalfa under irriga-
tion, capable of producing twelve hundred
and fifty tons of hay per annum. Twenty-
eight thousand acres of this ranch is now
under fence, and the remainder is a sta-
ble apart, with four barbed wires, nearly

Treat all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM
the effects of youthful follies or in-
discretion, will do well to avail them-
selves of this, the greatest boon ever laid
at the altar of suffering humanity. DR.
SPINNEY will guarantee to forfeit \$500
for every case of Gonorrhea, Syphilis,
or any kind of venereal disease, which he
does not cure and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and
sixty who are troubled with too frequent
evacuations of the bladder, often accom-
panied by a slight smarting or burning
sensation and a weakening of the system
in a manner the patient cannot account
for. On examining the urinary deposits
aropy sediment will often be found, and
some small particles of albumen will ap-
pear, or the color will be of a thin milky
hue, again changing to a dark and torpid
appearance. There are many men who
suffer from this difficulty, ignorant of the cause,
which is the second stage of venereal
weakness. Dr. R. will guarantee a per-
fect cure in all such cases, and a healthy
restoration of the genital-urinary organs.

POLITICAL GOSSIP.

A Saratoga correspondent to a
Chicago paper dished up politics
and politicians as follows.

A man named Stevens last week
brutally murdered a Chinaman near
Merced. There was no provocation
for the crime, the white man having
annoyed the Celestial, and then,
when the latter retaliated with abuse,
Stevens struck him over the head
with a billet of wood. When he was
captured the murderer coolly de-
clared that he was simply guilty of
manslaughter, as he had only killed
a Chinaman! In the lower Court he
was held for murder, but when the
transfer of his case was made to the
Superior Court of Fresno that Court
accepted his plea of manslaughter
and sentenced him to six years in
State Prison.

Ex-Congressman Horace F. Page,
of California, came here yesterday.
He is on his way West where he will
be joined in Chicago by ex-Congress-
man Hazleton. The two will then
go to New Mexico for the rest of the
year, looking after cattle and min-
ing interests. Page has been in Con-
gress over ten years. He is a man of
great force of character, who owes
his present unpopularity in California
to his being the "pirate captain"
of the river and harbor bill. He has
been so long in politics at Washing-
ton that he is thoroughly familiar
with all the peculiarities and quali-
ties of the leaders.

Speaking of Arthur yesterday, he
said: "I am surprised to see in
traveling about the country what a
popular man he is. I believe to-day
he is the strongest man in the repub-
lic to put on a ticket."

After eulogizing Arthur's course,
in many particulars criticizing him
here and there, he said: "I have been
surprised in one thing in my inter-
course with the President, and that
is to find him a much abler man and
a finer read lawyer than any man who
has held the post of President for the
last fifty years. His knowledge as a
lawyer was well illustrated only the
other day. I was interested in a com-
plicated tide-water land question in
my State. Teller differed with me as
to the construction of the law. I went
with Teller and made an appeal to
the President. I began my argu-
ment, and I never in my life saw a
man comprehend and take in so
quickly all the bearings of that case
which had cost me so much trouble.
He was familiar with every decision
of the Supreme Court for the last
hundred years bearing upon the
question of tide-water lands. He
very promptly told Mr. Teller
he was wrong in his construction of
the law, without consulting a single
authority. The clearness of his views
when he came to indicate them con-
vinced even Mr. Teller."

Mr. Page thought the strong ticket
for 1884 would be Arthur and Gies-
ham. He thought it would satisfy
everyone. In fact, it would make an
ideal ticket. He was very certain
that no one from Ohio would be on
the ticket in either place for some
time to come.

I saw a gentleman last night who
spent an evening with Conkling sev-
eral days ago. This gentleman has
served with Conkling for a number
of years at Washington when the latter
was in the House. In this evening's
chat Mr. Conkling talked very freely.
He talked for nearly three hours
without interruption. When he
finished he said: "There, I have
talked more politics to you than I
have for a year. But when I come
in contact with one of the old vet-
erans I cannot help going over the
tabooed subject of politics."

"Is it true that Conkling is angry
or displeased with Arthur?"

"No; not in the strict sense of the
word. Conkling has a high regard
for Arthur. He regards him as a man
of unusual ability. He said he was
a very fine lawyer, and as a healer of
disensions among factions Arthur
has no equal among the politicians of
the country. But while Conkling is
willing and freely pays tribute to the
ability and honesty of Arthur, yet he
thinks the President has made sev-
eral mistakes. He does not go and
see him any more—not because he is
angry with Arthur, but because he
does not care to give advice when the
President has in several instances gone
against his own judgment. Mr.
Conkling does not put this forward
in any egotistical sense. He was
called into consultation, but when he
saw a line of policy was being
pursued foreign to his taste he just
withdrew from his intimacy with
Arthur, though if the latter should
